PRODUCT
OVERVIEW

VISTAr^ope

VistaRope[®] is GameTime's collection of rope-based play activities for parks and playgrounds. Our freestanding net climbers and play system components give children an exciting way to stay active and explore a playground.

With our custom design capabilities we can create a virtually unlimited array of configurations to fit your space and budget.

— BENEFITS —

Personalized Play

Only GameTime can help you design a personalized play experience with a combination of rope and net play systems, composite play structures, and other freestanding play activities.

Our Landmark Design team helps you create the perfect play environment for your space and budget.

— BENEFITS —

Stronger & Softer

VistaRope uses our WeaveTech™ construction to create a strong, durable, and low-maintenance playground net system.

Each WeaveTech™ rope is 20mm in diameter and includes six SteelForce® cables with the industry's highest steel content.

The cables are wrapped in our ComfortGrip® polymer coating that's stronger than nylon and softer to the touch.

Challenges for all levels and abilities: beginner, intermediate, and advanced and accessible elements.

Slip-resistant, accessible route to slide

Transfer Platform

— BENEFITS —

Exclusive Designs & Inclusive Play Options

GameTime designs and offers VistaRope play systems you won't find anywhere else. We create custom play elements that meet your specific needs.

And with products like GT Wave®, we're creating the first generation of inclusive and accessible rope play structures for people of all abilities.

WeaveTech® 20mm Rope **16,000 POUNDS**

Competing 18mm Rope

Competing 16mm Rope

Up to **4X** Stronger

— FEATURES —

WeaveTech Cable System

WeaveTech™ ropes are industry-leading and 20mm in diameter. They're up to four times stronger than competing playground nets.

We start with a flexible polyamide core surrounded by six SteelForce® ropes with the industry's highest steel content. The cable system is encased in our ComfortGrip® synthetic polymer that is softer and more durable than nylon.

— FEATURES —

Colorful and Colorfast

VistaRope nets are available in a wide range of colors that match and complement our standard playground equipment colors.

The high-quality polymer coating on our WeaveTech ropes achieve an “excellent” rating for colorfastness.

— FEATURES —

Heavy Duty Hardware

VistaRope products feature heavy-duty six-inch diameter steel uprights, cast aluminum connectors, stainless steel shackles, and reinforced steel footings.

Our net climbers and rope structures are precision engineered for high-capacity play.

— FEATURES —

Supports Childhood Development

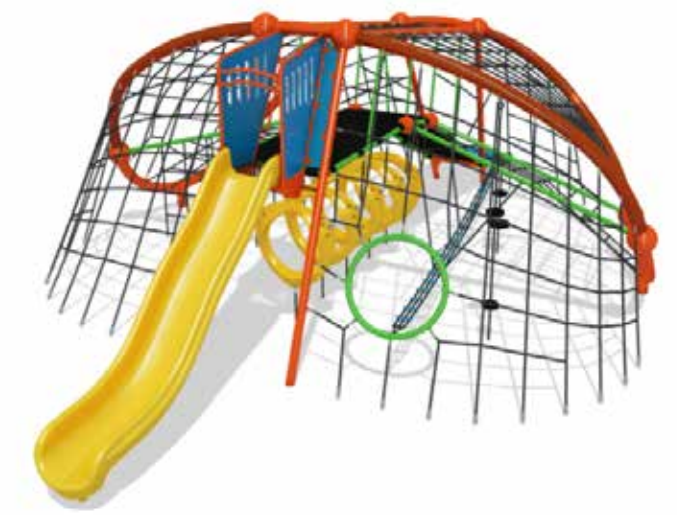

VistaRope products are backed by research and designed to enhance fine and gross motor skills.

They support four of the five developmental domains: physical, social-emotional, sensory, and cognitive.

VISTARCOPE FAQs

What is the warranty on VistaRope products?

- Lifetime warranty uprights and hardware, excluding cosmetic damages or defects
- 15 year limited warranty on punched steel, pipes, rails, loops and rungs
- 15 year limited warranty on rotomolded polyethylene components
- 15 year limited warranty on nylon bearings and ring junction pieces excluding cosmetic damages or defects
- 10 year limited warranty on cable breakage on VistaRope WeaveTech cables, excluding cosmetic damages or defects
- 3 year limited warranty on rubber seat and rubber mats for net events, excluding cosmetic damages or defects
- 5 year limited warranty on premature wear of poly cables, excluding cosmetic damages or defects

VISTAROPE FAQs

How often should VistaRope products be inspected and what are the inspection points?

- Post-installation checklist immediately after install
- 90 days after installation, inspect:
 - Connections
 - Hardware
 - Rotating bearings
 - Ropes for wear and tear, signs of vandalism
- Minimum every 12 months, inspect:
 - Connections
 - Hardware
 - Rotating bearings
 - Ropes for wear and tear, signs of vandalism

VISTAROPE FAQs

What are the recommend maintenance requirements for VistaRope products?

- Adjust the tension of WeaveTech® ropes if too loose
 - Mast net
 - Adjust tension mechanism as necessary
- Surfacing consideration
 - Top off loose fill material every 6-12 months
 - Utilize the maintenance poured in place, tile or turf enclosures to access the turnbuckles

VISTAROPE FAQs

Can cable wear be addressed with field repairs?

- In cases of frayed ropes due to regular “wear and tear” or minimal vandalism, an indirect heat method can be used
 - Stops fraying, reseals the WeaveTech® ropes
 - Can be performed by park maintenance staff or GameTime installers
 - Same tool used with rotomold plastic components
 - Appropriate if no steel cable breakage
- If VistaRope cables are excessively worn or damaged, SteelForce® sleeves can be applied to the affected sections
 - SteelForce Sleeves are available in 3”, 6”, and 9” lengths
 - Repair can be made in the field by park maintenance staff or GameTime installers

VISTAROPE FAQs

What is the replacement part process for VistaRope?

- If damage exceeds the capability of a field repair, replacement parts are available for all VistaRope® products.
- Field repairs may be possible, consult with your GameTime representative.
- GameTime reserves the right to field repair or replace ropes under warranty.
