

## Centrix

Studies also find that spinning and similar movements may enhance a child's brain development and their ability to pay attention. It's also a lot of fun! We create the Centrix to give young children (ages 2-5) an opportunity to spin on the playground. Features a rubber-topped seat and built in metal handhold around the circumference to grip while spinning.

## FEATURES AND BENEFITS:

- ❑ Seated spinning activity that helps children develop a sense of balance
- ❑ Rubber-topped seat to help riders stay seated
- ❑ Built-in metal handhold to grip while spinning
- ❑ Designed to complement the look of an Xscape play system, but looks great as a freestanding event on any playground
