

TriNet (Large) w/ PowerScape Connection

TriNet is a climbing structure that can be connected to a PowerScape or PrimeTime deck or used as a freestanding activity. The combination of nets, metal, and HDPE plastic materials create varying levels of challenge, climbing experiences, and routes of travel for up to 10 children. The aluminum frame, rungs, and HDPE climber components are available in all standard metal and plastic colors. Nets only available in black.

FEATURES AND BENEFITS:

- Enhances upper body and core strength
- Promotes balance and coordination development
- Develops hand-eye coordination
