

TriNet (Large)

TriNet (Large) is an exciting climbing structure that can be used as a freestanding play activity, connected to a PowerScape play system or linked to other TriNet climbers of varying sizes. The combination of nets, metal and HDPE plastic materials create varying levels of challenge, climbing experiences and routes of travel for children. Aluminum frame, rungs and HDPE climber components available in all standard metal and plastic colors. Nets only available in black.

FEATURES AND BENEFITS:

- Climber can be used freestanding, connected to a PowerScape play system or to additional TriNets
- Combination of vertical and angled climbing surfaces enhance physical, cognitive and decision-making skills
- Designed to promote social interaction during active play
- Constructed of durable, recyclable materials and backed the industry's leading warranty
