

## Chest Press

---

The Chest Press Station is similar to chest press machines in a gym or fitness center. Users sit on an ergonomically-designed saddle and lean back against a supportive backrest. As your arms move forward and up, the advanced variable resistance mechanism is activated to provide smooth, effective resistance while enhancing arm and shoulder strength. Also available in surface mount version (#13555S)

## FEATURES AND BENEFITS:

- Familiar-looking design is instantly recognizable to beginner and advanced users
- Utilizes our exclusive advanced variable resistance mechanism for smooth resistance throughout the range of motion
- The resistance mechanism is fully enclosed to protect from the elements and eliminates crush and shear hazards
