

## Mini Arch Bridge (3D)

Design Features: Consistent PowerScape 3D design language

Footpath is higher in the middle than at the ends, creating an arch

Available in any combination of metal and HDPE colors Benefits: Provides a stylish way to link two sections of the play system

Bridges offer a fun way to explore the play system We took the popular PowerScape 3D Arch Bridge and made it a little bit smaller. Routed HDPE and punched steel pattern is consistent with the rest of the 3D enhancement products and is backed by the industry's leading warranty.
