

## Caterpillar

Children can climb up and through the body of the caterpillar with this play functionally linked climber. The crawl tube provides an exciting passageway through the caterpillar with spy holes for visibility into and out of the tunnel, while the head and tail provide an inclined climbing experience as children imagine riding through the leaves on this caterpillar's back! The head and eyes provide an exciting element for imaginative play, and the legs provide a great place to gather, rest or socialize before the caterpillar makes its metamorphosis into a beautiful butterfly.

## FEATURES AND BENEFITS:

- ☐ Play functionally linked climber
- ☐ Provides varied levels of challenge for climbers of all ages
- ☐ Rotationally molded crawl tube with spy holes for visibility into and out of tunnel

## SPECIFICATIONS

Model                38044
