

RockScape™ Rock Step Link

When connected between two Single Arch Rocks (#7087), the Rock Step Link provides a fun and challenging climbing activity that promotes balance, coordination and decision-making skills. Each Rock Step is angled in a different direction and suspended from a flexible net that sways slightly as children step across.

FEATURES AND BENEFITS:

- Helps children develop balance and coordination skills
- Rocks are installed at different angles and suspended from a flexible net to create an age-appropriate climbing challenge
- Can be used as part of a RockScape climbing area or as a link on a PowerScape play system
- Includes overhead support bar, suspension nets, rock steps and all necessary installation hardware
- Durable steel and plastic construction withstands the elements and the rigors of early childhood play
