

## Suspension Bridge (3D)

Design Features: Consistent PowerScape 3D design language

Footpath is suspended from the frame to add a little "bounce" to your step

Available in any combination of metal and HDPE colors Benefits: Provides a fun way link two sections of the play system

Suspension bridges are confidence builders as children learn to cross a slightly-moving footpath The PowerScape 3D Suspension Bridge adds a "bouncy" movement as children walk across. Routed HDPE and punched steel pattern is consistent with the rest of the 3D enhancement products and is backed by the industry's leading warranty.
