

Graduated Balance Beam - Wide End

Available in both Wide and Narrow End versions, the Graduated Balance Beam is a rubber-topped beam that can be used as a freestanding event to help children develop balance and coordination, or it can be used as a ground-level link between sections of a play system.

FEATURES AND BENEFITS:

- Helps children develop balance and coordination skills
- Rubberized coating provides extra traction and helps prevent slipping
- Can be used as a freestanding play event or used as a ground-level link between sections of a play system
- Durable steel and plastic construction withstands the elements and the rigors of early childhood play
