

Poured-in-Place Rubber

A popular unitary surface choice, Poured in Place (PIP) Rubber is one of the best surfaces for ADA accessibility. A wide range of colors allows you to add an element of graphic fun to the playground by creating inlaid shapes and themed designs. PIP utilizes trained and certified installation crews to produce a surface that is attractive and durable. Although PIP carries one of the highest initial investment costs, it is often offset by lower maintenance costs over the life of the product. [Learn more here](#)
