Warranty 10 years

A low maintenance indoor or outdoor surface with basic design options

Description

Rubber tiles offer superior shock absorption, low maintenance, long wear and accessibility. They are also perfect for indoor applications, as there is no onsite mixing required. Order in one color, or in a variety to create simple designs.

GT Impax Tiles are available in two types. Our basic tile, utilizes adhesive to firmly lock each tile into place. We also offer an interlocking tile, which utilizes a patent-pending, locking edge to reduce lateral shift, corner lift, and strain on tiles. EPDM topped tiles are also available.

Benefits

- Lower maintenance
- Great for indoor applications
- Easy to repair, only the damaged tile needs to be removed and replaced
- Complete system of edges, corners, transitions and ramps available

Tips

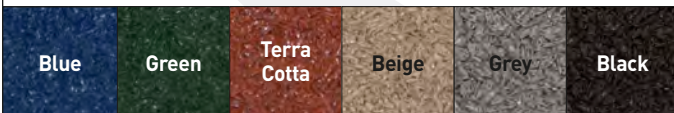

- You can mix colors to create checkerboard or other patterns in the tile
- Tiles are a green product, each tile keeps 2.5 tires out of our landfills

Basic Specifications

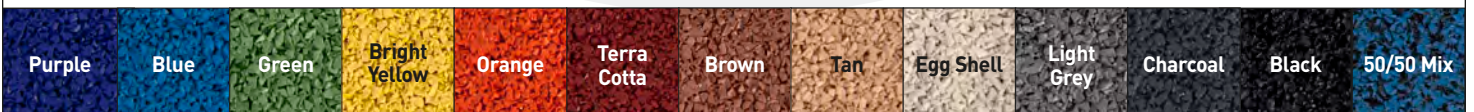

Solid colors or exciting multi-colored tiles, in varying thicknesses to meet critical fall heights. Various edging tile options are available, including ADA accessible ramp tiles. Tiles are the easiest of the solid surfaces to repair. If a tile is damaged, it can be removed and replaced easily. Although self installation is possible, professional installation is recommended, unless you have some prior experience.

This product meets all applicable ASTM standards. For more information, please refer to our complete product specification.
